EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-6 have been canceled.

This cancellation is due to the election of claims 7-12 without traverse in response filed 10/14/03. The claims were withdrawn at that time, formally announced in the subsequent action, and now necessitate cancellation for allowance of the application.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

US 4,471,356 does not teach an independent field-generating means at each unloading station. To the contrary, one loop generates a magnetic field along all of the unloading stations that is detected by unloading devices no matter where they are along the loop.

Art Unit: 3653

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
